## Compassion

I appreciate the time **Tim Peasel** (MiTech) took to assist me with some computer issues I was having. He did some trouble shooting and diligently worked to find the answer and correct the problem. He had my program fixed and running in just a few hours. Next, he took the time to follow up and be sure I was satisfied and it was working properly that same day. Great customer service!

## Collaboration

On Friday, March 3rd I was preparing to clean out the upstairs refrigerator. **Barb Ohs** (Business Office) was in the break room and she didn't say a word just got up grabbed a sponge and started to assist me. Together we completed the task quickly. Thank you Barb for being a great team player!

## Collaboration • Innovation

**Barb Smalla** (Human Resources) and I have tackled an inter department project that is a pain to say the least. We had a process down that wasn't working effectively and Barb worked continuously to improve the process to cut the required time it takes to complete literally in half. Thanks Barb for always thinking of a better way :)
