[kresa.org/you](http://kresa.org/you)

As a career pathway planning program for young adults, our services contribute to the well-being of business and career seekers alike. Having trouble recruiting and retaining? Let us open the door to an engaged group of young talent – individuals who have our support in navigating the road to their professional goals. Our staff coordinate soft skills development, formal education and hands-on work experience to prepare participants for sustainable employment opportunities.

Interested in teaming up but not sure where to start? Jump in at your comfort level:

**EXPLORATION PARTNERS** have limited time, but they make the most of it! Host a group of young people when you're able, expand their awareness of opportunities in fields otherwise unfamiliar, and use the time to bolster your reputation in the community!

**PATHWAY PARTNERS** have the time and resources to help our participants take a step toward their professional goals. Mold these young people into your ideal applicants by dedicating meaningful effort to their occupational development.

**PIPELINE PARTNERS** team up with YOU staff to offer ongoing career pathway programming for participants, creating a direct pipeline to employment. Does your organization want to be recognized as a place for career seekers to thrive? We'll help you unlock the potential of our young community members.
