

Why should I use this report?

This report will help you:

- Identify student needs by Performance Level and Scale Score
- Target groups of students
- Analyze students by MEAP Performance Level

MEAP Student Details Report

(sorted by Scale Score)

District Data Analyzer

<http://dda.kresanet.org/dda>

How to navigate DDA to produce this report

1. Open DDA and click on the MEAP tab.
2. Click on the year you wish to analyze at the top of the screen.
3. Under Select Analysis
 - a. click on Student Details
4. Under MEAP Selections
 - a) select the Testing Grade
 - b) select your School
 - c) select a Subject area
5. In the Student Details chart
 - a) Double click on the SS (Scale Score) column

The screenshot shows the '2006-2007 Math Student Details' table. The table has columns for Student Num..., LastName, FirstName, Gr..., Ge..., Ethnicity, Year, Subject, RS, PL, and SS. A grey box is overlaid on the table with the text 'Student numbers and student names are covered for privacy.' The table shows data for 18 students, with an average row at the bottom showing a scale score of 702.

Student Num...	LastName	FirstName	Gr...	Ge...	Ethnicity	Year	Subject	RS	PL	SS
7	F	Black	2006-2007	Math	16	4	675			
7	M	White	2006-2007	Math	17	4	675			
7	M	Black	2006-2007	Math	16	4	675			
7	M	Black	2006-2007	Math	16	4	675

7	M	Black	2006-2007	Math	17	3	676			
7	F	Black	2006-2007	Math	17	3	676			
7	M	Black	2006-2007	Math	17	3	676			
7	M	Black	2006-2007	Math	17	3	676			
7	M	White	2006-2007	Math	17	3	676			
7	M	White	2006-2007	Math	17	3	677			
Average								62	###	702

At this point, the report should show you a list of your students sorted by Performance Level and Scale Score in the subject area of your choice. You can identify groups of students that scored very close to the cut-off score. You can **Hold** this group of students and then change over to the Item Analysis report (in Select Analysis area) to see which GLCE's these students are weakest in. You could then offer enrichment or remediation as needed.

Examples of Guiding Questions to use with the Student Details Report:

- How many students are within 5 Scale Score points above and/or below the cut-off score?
- Do these students share common characteristics?
 - Sub-group (socio-economic, minority, disabilities, ESL, male-female)
 - Intervention, strategy or program
- Have the students missed the same items on the test?
- Are the students having difficulty with common GLCEs?
- Are there strategies that could impact this group's performance?
