

Jewelry and Metalsmithing

Portage Central High School

This course is a student-centric, choice-based, studio art class. Learn the six, basic jewelry-making skills essential to design and create unique pieces of jewelry.

- internal cut
- chain maille
- soldering
- forging and annealing
- enameling
- wire wrapping

Develop an online portfolio of work, participate in critiques, and have access to local jewelry designers as guest artists to gain skills and learn about the business of selling original jewelry.

Jewelry and Metalsmithing is a 1 credit semester course.

It may be taken as a year-long 2 credit class.

Class meets at Portage Central High School. Monday-Friday. 12:15-1:45pm.

Countywide Hub Bus Transportation available.
