

## EDUCATOR INCENTIVE GRANTS

*For Professional Development*

### **Submission Guidelines for 2016-17**

- I. Eight (8) Multi-Educator/Building-Wide Grants will be awarded on a competitive basis from among all submissions. Districts and school groups are not limited on the number of submissions, and there are no guaranteed awards by district or school group. (Two or more Educators)
- II. Two (2) District-Wide/Multi-District/School Cluster Grants will be awarded on a competitive basis from among all submissions. Districts and school groups are not limited on the number of submissions, and there are no guaranteed awards by district or school group. (Collaborative Projects of two or more educators, designed to impact a district or more than one district)
- III. Grants are to be used for the performance of the project. **Funding cannot be used to reimburse the school for substitutes, compensate staff for unpaid leave or other personal time given to the project, or directly purchase student supplies and equipment, including classroom technology.** Assistance and any needed clarification on allowable grant expenditures can be found on the Excellence in Education website. ([www.kresa.org/exined](http://www.kresa.org/exined))
- IV. All grant application submissions must be signed by the applicant(s), the building principal, and the superintendent (where applicable).
- V. Districts and school groups should set a deadline on or about February 10, 2017, for internal submissions, to allow time for the local selection process for grants that will be forwarded to Kalamazoo RESA (see below).
- VI. A local screening process is suggested to insure that both the Individual and Multiple Educator grant applications meet the grant requirements and carry local endorsement and commitment for the required funding match as described below.
- VII. Each school or district must provide a **twenty-five percent (25%) dollar match** to the direct cost of grants awarded by Excellence in Education to any individual educator or group of educators in their employ. For any grant award that crosses school or district lines, the sponsoring schools or districts will need to work out a shared arrangement for the match.

**Excellence in Education grant submissions will be due in Mr. Dave Campbell's office at Kalamazoo RESA on or before February 17, 2017.**
