

Kalamazoo RESA Extended COVID-19 Learning Plan Goal Reporting 2/1/2021

(Required by February 1, 2021 and by End of 20/21 School Year)

Goals outlined in KRESA’s Extended COVID-19 Learning Plan approved 10/1/20:

- **Goal #1:** Baseline data determined by individual need assessments will be obtained for 100% of K-8 students to initiate the IEP goals and objectives progress monitoring process within the first 9 weeks of the school year.

- **Goal #2:** 75% of K-8 students will be on track to obtain their individualized IEP goals and objectives by the end of the 2020-21 school year based on progress monitoring data.

Goal/Timeframe	Progress Towards Goal
Middle of the Year: Goal #1	80% of our K-8 students had individualized assessments related to their goals and objectives completed in the first 9 weeks of the school year. To create some additional context, of our K-8 students, approximately 76% have been attending in-person and 24% have been learning remotely. Learning remotely presents some challenges for accessing students in a way that allows for instruction and assessment to mimic IEP goals and objectives written for an in-person environment. The focus for our remote learners is to work with families to develop remote learning plans and address students’ communication and behavior needs in the home environment as much as possible. Teachers work with families to gather as much data on what they can and adjust instruction as necessary. We hope that more students will return to in-person learning as the school year progresses. As that occurs, teachers will complete the needed assessments to determine baseline data and know where to start instruction related to a student’s IEP goals and objectives.
End of the Year: Goal #1	TBD- July 2021
Middle of the Year: Goal #2	Currently, 65% of the IEP goals and objectives being monitored are on track to be met by the end of the IEP year. This reflects the number of students we have had the opportunity to work with in-person and we hope the number grows in the second half of the school year. We are investigating ways to gather this data efficiently and be able to review sub-group data as well.
End of the Year: Goal #2	TBD- July 2021
